

Hygiene measures

In order to make your visit to the Messezentrum Salzburg as safe as possible, we have drawn up appropriate hygiene measures. We ask you to exercise your personal responsibility at the trade fair for the safety of all.

- obligatory mouth-and-nose protection on the entire exhibition area
- a minimum distance of 1 meter minimum distance to all persons not living in the same household as you
- no shaking hands
- wash and disinfect hands regularly. Dispensers that can be operated without contact are available throughout the entire area
- cough and sneeze in the crook of your arm

If you feel ill, please do not visit the fair in the interest of the health and safety of all. If you are already on site and suddenly feel ill, please dial 1450 immediately or contact the local medical team.

As an organizer we do our best to offer you a safe event. With great experiences and profitable contacts. For your safety we have rescheduled the exhibition this year:

- separate entrances and exits
- especially wide corridors
- maximum fresh air supply in all halls
- safety devices at narrow spaces
- area-wide disinfectant dispensers
- increased cleaning intervals for all sanitary areas and contact surfaces

With attentiveness and care, the Event Year 2021 will be diverse, successful and full of wonderful experiences for all participants! We are looking forward to it.
